
Professional Experience

The Rynge Group AB Gothenburg, Sweden www.rynge.com	Founder, CEO 2007-07 to <i>present</i> Working with strategic business and market development both with internal projects as well as a consultant for external clients. TRG creates value through development and execution of strategies and plans for continuous growth and improvements.
Liquidice Gothenburg, Sweden	Founder, Self-employed 1997-08 to 2007-07 Consultant in business and market development focusing on creating competitive advantage for growth companies. The founding of Liquidice has strengthened my ability to take initiatives and developed the creative sides of my personality. I have gained experience in project management as well as the administration of running a business.
Medfield Diagnostics AB Gothenburg, Sweden	Project Manager / Marketing manager 2006-03 to 2006-08 Acting as informal CEO during the start-up phase of the company, focusing on activities such as market analysis, strategic business planning and raising funds. At Medfield I have developed a better understanding of the medical device market and the regulations for such products, as well as the issues involved in selling to the public sector. My work at Medfield is a continuance of me consulting for the company as a business development consultant at Liquidice.
Saligus AB Gothenburg, Sweden	Business & Product Developer 2003-10 to 2005-11 Co-Founder and part of the management team. Responsible for the R&D process, including planning and managing the product development processes as well as part of the business development processes in marketing, finance and economics.
